

OE WAX ROLLS - BIG SIZE

Precision-designed for open-end spinning to enhance yarn flow and reduce friction at high speeds.

Ht : 30 mm
OD : 50 mm
ID : 15x15 mm (Square)
Wgt : 47 gram
Colors : White / Yellow

- Improve fiber transfer efficiency during rotor spinning
- Reduced rotor friction and minimizes yarn neps
- Uniformity & Reduces end-breaks
- Suitable for coarse & medium count yarn production

Manufactured on prior order request

LOOM WAX ROLLS

Designed to enhance yarn movement and maintain stability in loom operations.

Ht : 18 inch
DIA : 1.5 INCH
Wgt : 500 gram

- Reduces friction & prevents thread fluffing during weaving
- Enhance fabric surface finish and reduces defects
- Supports stable control even in high-speed loom running

Orders accepted with a minimum order quantity of 25 Kg

ABOUT US

Manufacturer of premium textile wax rolls since 2022.

Yagee Industries specializes in high-quality wax solutions engineered for superior performance in textile applications. With a strong focus on consistency, precision and continuous innovation, we provide reliable products trusted by mills and manufacturers across the industry.

- Consistent Quality
- Precision Manufacturing
- Customer Focused Approach
- Export-Ready Standards

WHY CHOOSE US

Delivering precision, quality and reliability for modern textile manufacturing

- 25+ years of experience in wax industries and 8+ years of experience in textile wax manufacturing
- Strict quality control for consistent product performance
- Bulk production capability with timely delivery assurance
- Custom sizing solutions for different Spinning & Weaving requirements
- Strong customer support with long-term business partnerships
- Packaging & Professional logistics handling
- Competitive pricing without compromising on quality

Your trusted partner for textiles wax solutions

YAAGEE INDUSTRIES

Premium Textile Wax Solutions

AUTOcone WAX ROLLS

Engineered for smooth winding and improved efficiency.

Ht : 42 mm
OD : 38 mm
ID : 15 mm
Wgt : 35 gram

- Smooth yarn flow
- Reduced breakage & Friction
- Uniform shape for stable high-speed winding
- Trusted by leading textile mills

Available in customized sizes & bulk orders

OE WINDING WAX ROLLS

Precision-designed for open-end spinning to enhance yarn flow and reduce friction at high speeds.

Ht : 21 mm
OD : 38 mm
ID : 14x14 mm (Square)
Wgt : 18 gram
Colors : White / Yellow

- Improve fiber transfer efficiency during rotor spinning
- Reduced rotor friction and minimizes yarn neps
- Uniformity & Reduces end-breaks
- Suitable for coarse & medium count yarn production

Available in customized sizes & bulk orders

AUTOcone WAX ROLLS

Engineered for smooth winding and improved efficiency.

Ht : 42 mm
OD : 38 mm
ID : 15 mm
Wgt : 35 gram

- Smooth yarn flow
- Reduced breakage & Friction
- Uniform shape for stable high-speed winding
- Trusted by leading textile mills

Available in customized sizes & bulk orders

OIL WINDING WAX ROLLS

Designed for smooth yarn passage and superior performance in winding machines.

Ht : 21 mm
OD : 38 mm
ID : 15 mm
Wgt : 19 gram

- Improve yarn glide efficiency
- Reduced yarn breakage & Friction
- Uniform shape for stable high-speed winding
- Ideal for high-speed winding systems

Available in customized sizes & bulk orders

OE WAX ROLLS

Specially designed for open-end spinning system to enhance fiber control and reduce friction.

Ht : 36 mm
OD : 38 mm
ID : 14x14 mm (Square)
Wgt : 30 gram
Colors : White / Yellow

- Improve fiber transfer efficiency during rotor spinning
- Reduced rotor friction and minimizes yarn neps
- Uniformity & Reduces end-breaks
- Suitable for coarse & medium count yarn production

Available in customized sizes & bulk orders
